

## 4702-00xx Bowls sterilisable

Marked PP products are suitable for contact with all foodstuff categories in so far as a contact period of 24 hours and a contact temperature of 40 °C are not exceeded. Marked SAN products are suitable for contact with all aqueous, alcoholic and fatty foods, in so far as a contact period of 24 hours and a contact temperature of 40 °C are not exceeded. Unfortunately we are unable to provide any information with regard to contact period in excess of 24 hours and contact temperatures in excess of 40 °C, as these did not constitute part of the testing.

Consequently, under the specified testing conditions, the marked products are in accordance with the requirements of Commission Directive 2002/72/EC (up to and including amending Directive 2007/19/EC) and Regulation (EC) No. 1935/2004. The marked products are also in accordance with the requirements of the Commodities Regulation (Bedarfsgegenstände-VO as of: 20.12.2006) and the German Food and Feed Code (Lebensmittel- und Futtermittelgesetzbuch, LFGB). All source materials used in the manufacturing of the products are listed in the Commodities Regulation (Bedarfsgegenstände-VO as of: 20.12.2006), or respectively, Commission Directive 2002/72/EC (up to and including amending Directive 2007/19/EC), in accordance with the present attestation.

Therefore, they represent permissible source materials in accordance with food law and may be used in the production of food commodities in accordance with the specified restrictions concerning migration threshold values and permissible residual content in the end product. In addition to the testing of the adherence to the threshold values for the global migration (or respectively, the specific migration threshold values), a sensory testing for possible olfactory and flavour-related impairment of test foods was also implemented. All testing and analysis was performed by an independent, accredited institute.

The declaration is based on our current state of knowledge and information provided by our supplier at the time that the document was drawn up. The supplier – Bürkle GmbH in Bad Bellingen/Germany – is certified according to the standard DIN EN ISO 9001 by the DQS (German Society for Quality Assurance) since 1995. The number of certificate is 2284-08.
